FAQ (Frequently Asked Questions)

Q.: My Radiotherapy institute is already licensed by AERB; do I have to submit Institute Registration form?

A.: No, existing licensed Radiotherapy Institutes need not to submit Institute Registration form. They will be migrated to eLORA system and their eLORA account detail (USERNAME and PASSWORD) will be sent by AERB in a phased manner.

For releasing your licensed Radiotherapy institute, AERB need pre-registration data. If your institute is not released in eLORA and you have not submitted pre-registration data, then you need to submit pre-registration data to AERB for which template (in Excel file) is available on eLORA home page. An instruction to fill and send pre-registration data is available in the template.

For more FAQs, Pl. visit eLORA home page.

Note: For already registered institutes, update institute functionality is available to add more practices (i.e. to add more functionality viz. adding Diagnostic Radiology functionality in your account for Radiotherapy and vice versa). The guidelines are available on eLORA home page.
