Department of Medical, Health & Family Welfare
Government of Rajasthan

D.O. No: 65/ACS/M&H/2020
Jaipur, Dated: 11 March, 2020

Dear Dr. Thareja,

Sub: General Advisory regarding Coronavirus (COVID19) management in the State

With reference to the subject matter letters have been addressed earlier by the undersigned regarding containment of Coronavirus (COVID19) in the state vide No.56/PS/ACS/M&H/2020 dated 5.3.2020 & IDSP//2020/256 dated 8.3.2020.

In spite of above communication and a meeting of myself with leading private hospitals of Jaipur on 8.3.2020, it was brought to my notice that admission to a suspected Coronavirus patient was refused (who was later admitted to SMS Hospital) on night of 8.3.2020. This goes against the ethics of medical profession & humanity. In this regard, you are directed to ensure that all private hospitals in the state extend their full co-operation for treatment and management of suspected Coronavirus cases. Kindly ensure the following:-

1. Availability of separate functional Isolation ward/beds for these patients
2. A separate OPD for ILI/URI patients
3. Availability of Doctors and paramedics for management of such patients in Isolation ward
4. Display of IEC material (Posters/LED etc) in waiting area for patient sensitization & awareness
5. Co-ordination with SMS Hospital for sample collection of suspect cases, if need arises.
6. Adherence to guidelines issued time to time in this regard, which can be accessed at :-

- <http://www.rajswasthya.nic.in>
- <https://www.mohfw.gov.in>

best wishes,

Yours faithfully

11/03/2020
(Rohit Kumar Singh)
