Dear Sir/Madam,

22-11-10

Warm Greetings

शासन सचिवालय, जयपुर
18 NOV 2010
10407

I have great pleasure in enclosing the brochure of 6th Management Development Programme on "Using Data for Programme Monitoring and Evaluation" scheduled from December 20-22, 2010. The fourth and fifth programmes were conducted exclusively for UNICEF.

The programme deals with the role of data in monitoring and evaluation of health programmes. It also addresses the need for appropriate data for taking key decisions in managing health care organizations. The focus areas of the programme are identifying data needs, their sources and putting in place systems necessary for collection and converting it into information needed for decision making. Another important aspect of health of organizations is often they experience a glut of data but little information. Presenting the findings succinctly to programme managers is another area of focus in this programme.

Exercises and group work on data analysis and decision making will sharpen the skills of the participants, so that they can manage the data in their organizations, more effectively.

I am confident that it will be of interest to you and your colleagues. I look forward to participation of your organization in this programme. I am enclosing a list of organizations participated in the earlier programmes.

Though the Programme is focused on Health Sector, it is relevant and useful to other Social Sector areas also.

Thanking you,

Cordially Yours,

(Dr. P.H. Rao)

Programme Director

Professor - Health Studies Area
