Add. Co. Dear Sir/Madam,

Re: Call for applications for the One-year Diploma in Public Health (DPH) Programme for in-service candidates of government health departments being offered by our centre

Dr PH
11/11
I am writing to inform you that our centre is now calling for applications for admission to the above course, and to request your support in soliciting applications from suitable candidates from your department.

The one-year diploma programme in public health was started more than five years ago to train in-service health professionals (medical doctors) to be health managers with a grounding in public health and able to plan, design, implement, monitor and evaluate interventions. The course includes modules in epidemiology and biostatistics, health management, health policy, environmental health, reproductive health, and social determinants of health including gender. Candidates receive training in using computer software for epidemiology and management. Till date, close to 60 candidates have attended the course with the sponsorship of their respective health departments, and we have received excellent feedback from alumni and their sponsoring departments.

Please find attached the prospectus of the institute and the application form. The Sree Chitra Tirunal Institute for Medical Sciences & Technology (SCTIMST), Trivandrum is an Institute of National Importance established by an Act of the Indian Parliament in 1980. It is an autonomous Institute under the administrative control of the Department of Science and Technology, Government of India. The Institute has the status of a University and offers postdoctoral, doctoral and postgraduate courses in medical specialties, public health, basic sciences and health care technology. Achutha Menon Centre for Health Science Studies is the public health wing of the institute, and offers doctoral, Masters and Diploma programmes in Public Health. Information pertaining to the DPH course for in-service candidates may be found on p.27 of the prospectus, and p.14 gives details of fees payable.
