Message to Hon'ble Chief Minister, Rajasthan
Subject To make our war against corona better

Creative Suggestion

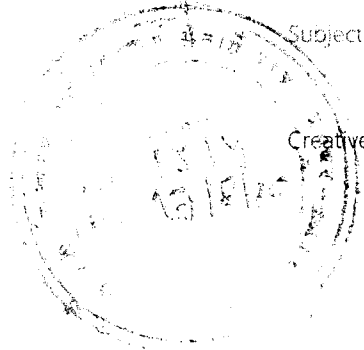

Dear Sir,

First of all I would like to express my sincere gratitude for your excellent efforts in controlling the spread of corona virus in the state. We are so proud that rajasthan is doing far better than many other so called main states of the country. Sir there are two things where more efforts are required in order to contain the virus in a better way.

1. Sir I have noticed that the testings rate are not been increased in recent days which is badly hampering our test per one corona positive ratio. Where other states like Uttar Pradesh, tamil Nadu, Andhra are testing more than 50000 test per day, we are testing around only 27000 per day. I know our test per one corona positive is one of the best in the country but if we do not increase the testings rapidly that ratio would be hampered and our war against corona will be affected.

2. Sir even after all the awareness campaign and your sincere efforts, people are still not willing to put on mask while they are out and do not want to keep social distancing. Now its high time that the police and the administration has to be more strict and put serious fine on not putting the mask and other violations. Otherwise you will keep containing the virus and people will keep spreading it and it will be a long going process.

Sir if we work on these two things I am quite sure that we can easily decrease the active cases to a decent number in a month itself.
